PROFILE

Final-year B.E. Computer Science & Engineering student focused on software development, software quality assurance, and AI application development. Built and led product development for QualiMind AI and Nirvira, combining software engineering, AI integration, project understanding, and quality-focused workflows.

PROJECTS

QUALIMIND AI

AI-powered Software Quality Intelligence Platform

- Helps teams understand project context, requirements, APIs, software structure, and quality workflows.
- AI-assisted requirement analysis, QA assistance, test-case generation, bug-focused analysis, and retesting workflows.
- Role: Founder | AI Developer | Software Developer | Product Lead
- GitHub / Demo: Confidential

NIRVIRA

AI Operating System for Information Technology

- Designed to reduce the context gap between IT domains by connecting knowledge, workflows, and domain intelligence.
- Focuses on observing, understanding, correlating, reasoning, orchestrating, and validating IT context.
- Role: Founder | AI Developer | Software Developer | System Designer
- GitHub / Demo: Confidential

TECHNICAL SKILLS

- Languages: C, Python, Java, JavaScript, TypeScript
- Web: HTML5, CSS3, React.js, Next.js, Node.js, Tailwind CSS
- Databases: SQL, PostgreSQL, MongoDB
- AI: Generative AI, LLM Integration, AI Application Development, Prompt Engineering
- Quality: Software Quality Assurance, API Testing, Requirements Analysis, Bug Analysis
- Tools: Git, GitHub, VS Code, Postman
- Other: System Analysis, Product Understanding, Problem Solving, Research & Development

PROJECT & RESEARCH FOCUS

- AI-powered software systems and intelligent developer/QA workflows
- Context-aware software understanding and cross-domain orchestration
- Research-oriented exploration of AI and software engineering

Open to opportunities in Software Development, AI Development, and Software Quality.

EDUCATION

B.E. Computer Science & Engineering

ICEEM | DBAMU

Final Year | CGPA: 6.4

CAREER OBJECTIVE

To grow as a software developer and AI developer while building reliable software and applying quality engineering principles to real-world technology products.

ACHIEVEMENTS & ACTIVITIES

- Participated in Aavishkar
- Participated in TechArena
- Research paper / technical research work

CERTIFICATIONS

Multiple technical certifications; detailed certificate list to be added.

CORE STRENGTHS

- AI-first product development
- End-to-end project ownership
- Software quality mindset
- Rapid learning and technical research
- System and product thinking

PORTFOLIO

Portfolio theme: Dark + Light, modern futuristic creative design with blue, purple, gold, and silver accents.

Planned features: responsive layout, project filtering, AI assistant, resume download, interactive animations.
